

Convoyer station

Technical spesification

General information	
Designated use	For autonomous unloading and transporting pallets
Type	Convoyer station for mobile robots
Color	RAL 7010 fine structur
Cover material	Powder painted
Product design life	5 years
Dimensions	
Length	1300 mm
Width	1188 mm
Height	450 mm
Weight	
Payload	
Maximum payload	1350 kilo
Payload placement	Place with mobil robot
Environment	
Ambient temperature range	5°C to 40°C
Environment	For indoor use only
Humidity	10-95% non-condensing
Compliance	
Sensors	
E3AS-F	Photocell for pallet indication
Communication	
Wireless	
Safety	
Emergency switch	
Service switch	For maintenance
Accessories	
Control panel	On request
